

SBT A Natural Way Of Being

SBT Seabuckthorn Seed Oil For Rosacea

Sensitive or reactive skin is often deficient in Omega Fatty Acids. Start your program with a our 100% pure, Organic SBT Seabuckthorn Seed Oil. Not only is your skin receiving the Omegas, it is also being nourished by Carotenoids, Tocopherols, Phospholipids and Phytosterols.

For best results use our Seabuckthorn products exclusively for the duration of the Treatment Program. Use only your fingertips to cleanse and apply our oil. No scrubs, face cloths or exfoliating products or fabrics should be used during this time. Treat your sensitive skin with the most tender care. Pat don't rub!

Cleanse your skin with a very gentle cleanser, rinse with warm water only and lightly pat dry. Shake the oil into the palm of your hand and apply gently to your face. Gently rub the oil into your skin full and complete coverage. Be sure to use enough to ensure that you are moisturizing your skin. Repeat this program morning and night.

Our SBT Seed Oil is very fine and absorbent and will leave your skin feeling soft and silky with no oily residue. Once the oil is fully absorbed you can apply foundation or cover-up if you absolutely must.
